

7HILLS

LISBON CITY GUIDE

Lisbon - the city of the 7 hills.
Feeling too tired? UBER is one of the best ways to move around the city center, usually it costs 5€ up to 2kms.
You can exercise on the way down and get a car to drive you up. Alternatively in Intendent Square you will find a bike shop "Bike Pop", that has foldable bikes available and which you can store in your apartment.

TOREL GARDEN

One of the most peaceful view points of the city with the most breathtaking views to Lisbon. It is a high climb but you can enjoy a cold drink and go down to Rossio from the garden stairs.

OnJ S. Lázaro building was built in 1830, some details where fully restored and kept from that time, such us: the facade tiles; the stair case, the chess marble floor at the main entrance, our main door and others.

OnJ started from a dream made true when when mom and daughter decided to work together and bring both their backgrounds into life, with one single goal: make all guests that stay at any OnJ property trully experience the city like locals and sleep like babies at night. Aligned with awesome food and delicious cocktails OnJ Lisbon was born. Today we have the best team welcoming you into our city, giving the best tips around town and making your trip unforgettable.
